## Special Price List—Please Read Carefully

PRICES.—We wish to quickly reduce our present stock. To do this we have made our prices, we believe, very attractive. They are based on a net cash basis. Remittances must accompany order in cash or Express or Postal Money Order. Orders filled in the order they are received. "POSITIVELY NO SUBSTITUTIONS." Your money promptly refunded if stock is sold out. This price list cancels all previous ones.

Please note the following: Where bulbs of any size or bulblets are priced individually, you may select any TEN VARIETIES for the prices given below, ALL MARKED SEPARATELY.

SIZE OF BULBS.—Our bulbs are quoted in small  $\frac{1}{4}$  inch to  $\frac{3}{4}$  inch, medium 1 inch to  $1\frac{1}{4}$  inch, large  $1\frac{1}{2}$  inch up. Where small bulbs are offered they are the best size to buy, because they are young and full of pep and usually produce many more bulblets than the larger bulbs. To save space large bulbs are marked L., medium M., Small S., Bulblets, Blts. If you want large exhibition spikes the first year you should buy large bulbs.

DESCRIPTIONS.—We wish to refer you to our 1928 catalogue for descriptions. WE WILL NOT issue a new catalogue for 1929. Where varieties have been added we give complete descriptions.

NEW VARIETIES, SUPER EXHIBITION TYPES.—All gladiolus growers are naturally interested in the many new varieties that are offered each year. We can especially recommend those marked \*. Exhibitors should give varieties so marked preference as we have found them the biggest and choicest in our collection.

PRICES ARE PER EACH EXCEPT WHERE OTHERWISE NOTED AND VARIETIES ARE OFFERED SUBJECT TO PRIOR SALE.
